

Hoe kan ik de afspraak interval instellen?

Via Begin -> Applicatie instellingen -> Programma instellingen -> Agenda instellingen kunt de u de interval van de agenda instellen, variërend van 5 minuten tot 1 uur.

The screenshot shows the 'Programma instellingen' page in the Onatal application. The left sidebar contains a navigation menu with categories like 'Admin', 'Instellingen', and 'Praktijken / instellingen'. The main content area is divided into sections: 'applicatie instellingen', 'programma instellingen', 'automatische cliënt/zwangerschap nummering', 'agenda instellingen', and 'zwangerschapskaart instellingen'. In the 'agenda instellingen' section, the 'Afspraak interval' is set to '5 minuten', indicated by a black arrow. Other settings include 'Beginnen om' (8:00), 'Eindigen om' (22:00), and 'Standaard agenda' (Dag overzicht).

Wanneer uw installatie beschikt over de Agenda Plus module kan deze instelling per gebruiker worden ingesteld. Dat doet u via Begin -> Persoonlijke instellingen -> Agenda instellingen.

The screenshot shows the 'Persoonlijke instellingen' page in the Onatal application. The left sidebar is the same as in the previous screenshot. The main content area is divided into sections: 'Persoonlijke instellingen', 'layout', 'agenda instellingen', 'taal', and 'handtekening'. In the 'agenda instellingen' section, the 'Afspraak interval' is set to '15 minuten', indicated by a black arrow. Other settings include 'Standaard agenda' (Dag overzicht), 'Selecteren afspraak' (In weken), and 'Aantal weken' (12). The 'taal' section shows 'Set language' set to 'English'. A 'Opslaan' button is visible at the bottom right of the settings area.
